

Building site to Bardolino

Ref. 1003 - c

The residential complex is composed of ten exclusive apartments divided on two floors, all with breathtaking views of Lake Garda, designed to offer maximum comfort and privacy. Each unit has a private garage and direct access to the panoramic swimming pool, ideal for moments of relaxation. The modern and elegant architecture blends harmoniously with the surrounding environment, using quality materials and innovative solutions. The common areas and green areas, cared for down to the smallest details, offer large spaces for conviviality and tranquility.

The finishes and amenities of our residence are designed to ensure comfort and refinement.

Each apartment is equipped with high-quality fixtures, which ensure thermal and acoustic insulation, and elegant bathrooms with resistant and quality materials. Modern technology is integrated into every room, with home automation systems that allow you to manage

easily lighting, heating and air conditioning. Underfloor heating and air conditioning provide optimum comfort in all seasons.

Furthermore, the complex is designed with a strong commitment to energy efficiency and sustainability, using eco-friendly solutions to minimize environmental impact and ensure a high quality of life.
