

Building site to Lazise Ref. 1064

Ref. 1064

In the heart of Lazise, just minutes from Lake Garda, Residenza Borgo Luce, an exclusive residential complex designed by Piersolieri Architecture, is born.

The project includes five three-room apartments with modern and refined lines, spread over two levels: three units on the ground floor with private gardens and two on the first floor with large panoramic terraces.

Each home is designed to ensure comfort, privacy, and energy efficiency, with bright spaces, high-quality finishes, and a strong connection between interior and exterior.

Completing the property is a shared infinity pool, solarium area, and private covered parking spaces.

Residenza Borgo Luce is an ideal solution as a primary residence, an investment property, or a second home for tourism, in one of Lake Garda's most sought-after locations.
